Dear Clinician

Nidek UK would like to offer you the opportunity to greatly enhance your ophthalmic services.

Did you know that there are significant new features in the new modular Pentacam software? And they could be yours. Upgrading to the latest version for your application will ensure you are getting the most advanced features and functionality and provide you with the opportunity to enhance your services and level of clinical excellence.

Please see below for a brief overview of the software modules available and their functionality

You will be pleased to know that if you have current service contract with us that installations of the software upgrades by one of our qualified engineers will be totally 'free of Charge'. There is a nominal fee for installation for customers without a contract. You will then be able to purchase the optional modules which can be enabled over the telephone.

*For more information visit:
